

THE SELF TAPE PLACE

AUDITION CHECKLIST:

Stand like an athlete with your feet beneath your shoulders.

React AWAY and UP from the camera, never toward it.

Anchor yourself in emotion at the top of the scene.

Use a printed script, not an electronic device.

Know the geography of the scene in advance.

Block all of your eyelines, entrances and exits.

Ignite your breath during countdown to "action".

Target your voice so it lands directly on the reader.

Beware of darting your eyes and smacking sounds.

Don't roll your eyes, even if your character is exasperated.

Move your feet only with purpose, not static. Stay grounded.
